HUMAN SERVICES-EDUCATION
FOREIGN OPERATIONS, EXPORT FINANCING
AND RELATED PROGRAMS

November 3, 2007

Mr. Tony Fuller
Step It Up
1000 West Leland Avenue #7F
Chicago, Illinois 60640

Dear Mr. Fuller and Step It Up members:

I want to thank and applaud you and Step It Up members for your commitment to combat global warming.

Global warming is a clear threat to the entire planet. As the Member of Congress who consistently receives the highest rating from environmentalists, I support legislation that cuts global warming pollution with enforceable deadlines, promotes fuel-efficient vehicles, and encourages utilities to generate 25 percent of their electricity from renewable sources such as wind, solar and geothermal power.

Further, I support your objectives to increase "green" jobs and expand "green" technology so that our world can reduce carbon emissions and the number of coal-fired power plants.

In the coming years, Congress must provide strong leadership to reduce air pollution, promote energy efficiency, and expand the use of renewable energy sources. I will be part of that effort.

As for today's national rally, I wish you the best. I will be with you in spirit.

Sincerely,

Jesse L. Jackson, Jr.
Member of Congress
